The smile, the shining eyes, the clasped hands, all graphically depict that to Cynthia Elizabeth Mendoza happiness at this moment is Santa Claus. FOOTBALL FEVER

... is not a rare disease, but it is extremely contagious and can only be cured by the ending of a season. Even then the cure is not total. The fever only subsides and becomes dormant until the next year.

To say that an epidemic of football fever is sweeping Hondo right now would be the understatement of the year. It rages through the town, touching young and old alike and turning them all BIG BLUE.

Fever reached extreme heights Monday night prior to Hondo-Rosebud game tickets going on sale. Fans actually began a night long vigil at the door of the school business office at 6 p.m. Monday. They took shifts and remained there all night so they could be first in line Tuesday morning.

Some of them, I am told, included: Roy Long, Ralph Hauger, Frank Helvey, Jack Gruber and Judge Sandusky. And I do hope my informant was mistaken when he told me that after all that waiting Jack Gruber did not get all the tickets he needed. That couldn't be possible, could it Jack?

Our man Tony Mendoza recorded this action on film and we have a few shots scattered in the paper.

CASTROVILLE FOLKS

... are pulling hard for the Big Blue to go all the way. At the Refugio game I spotted many Castroville faces and Lynn Boehme personally congratulated us on the game.

But the proof of the pudding of their support came Monday night at the annual Hondo Chamber banquet. There an envelope was passed to new president Bud Woolfs. On the outside it read: "To the People of Hondo from the People of Castroville."

And the message inside brought a big round of applause when Bud read aloud: "All the way Big Blue. We want you to know Castroville is for you." It was signed by Mayor Sammy Tschirhart and Chamber President Maurice Rihn.

Added to the Hondo fever such fine support certainly will go a long way toward boosting the Owls to greater heights.

CONSTABLE ALVIN SANTLEBEN

... of LaCoste certainly has a worthy project. Concerned over an ever-increasing drug abuse problem in our area, state and nation, he decided to try preventative measures in his area.

Alvin had printed, at his own cost, a chart which is titled "Narcotics Identification." Please turn to Page 2

Tower calls for self-confidence

"Confidence and cooperation are the key factors in the United States maintaining its position as a great world leader," Sen. John Tower told some 300 persons attending the annual Hondo Chamber of Commerce banquet Monday night.

The Senator pointed out the country is beset by many problems, poverty, racial tension, inflation, unemployment. "Yes, we have these problems," he said. "But if we will leave behind our tendencies to wallow in our plight and take on a massive dose of self-confidence and cooperate with each other, we can make it work and put our nation back on its feet as a great power in trade and economics."

Sen. Tower was delayed in arriving at the banquet for sometime due to plane connections from Washington. He had cast a vote on the Senate floor at 4 p.m. (Eastern Standard Time) before leaving for Hondo.

He briefly covered the Vietnam war, the present economic situation and the need for rural development.

"All America is concerned about our involvement in Southeast Asia," he said. "But in all the rhetoric we must remember that 50,000 Americans have died there and some 1500 men are still being held as prisoners of war."

"We want out; we should get out; we shouldn't have been there in the first place."

Chat with Senator

The two Hondo Chamber of Commerce presidents, incoming and outgoing, paused Monday night to chat with Sen. John Tower, center, following his speech at the Chamber of Commerce Banquet. Newell (Bud) Woolfs, left, was installed as the new president, while Rene Aelvoet turned over the reins after a year in the seat.

HONORED

A. D. "Andy" Patterson, right, was honored Monday night as the Outstanding Citizen by the Hondo Chamber of Commerce. Board member Chuck Hackbeil, left, made the presentation. Patterson was cited for his work in the church, Scouting, Little League, Hondo Public Library, Chamber of Commerce and Hondo City Council.

Chapa has second location

E. J. Chapa, at Chapa Furniture, has opened a second location and invites all to attend the Grand Opening this weekend.

His second store is located at 1716 Ave. M, formerly occupied by the Hollmig Dress Shop.

In a half page ad this week, E. J. celebrates his opening by offering some excellent bargains, door prizes and extra gifts at low, low prices.

"Come by and see us and have a cup of coffee," E. J. and Norma say to Hondo and area residents.

Rain Forecast correct

It rained, Doc Taylor! The report turned in from the Weather Station at the Airbase by Doc Taylor shows a total of 1.15 inches in Hondo for Dec. 2, 4 and 5.

"And you can look for cold, wet weather Dec. 8-9," says Doc. (Dec. 9 is uncertain at this time, but Dec. 8 hit Doc's prediction. It is cold, wet and miserable.)

Owls to meet big Cougars in semi-final tilt

They say in state football playoffs that "the farther you go the tougher they get" and the Hondo Owls, after checking their size and statistical record, agree the Rosebud Cougars live up to the saying.

But that doesn't imply the Owls intend to roll over and play dead Friday night in the 8 p.m. semi-finals battle at Matador Stadium in Seguin.

The Owls boast a few impressive statistics themselves and they will enter

the clash determined to "hang tough" and defend their record.

Rosebud has won 12 games this season while dropping one, and this marks the fourth time in five years they have been in the state playoffs. The Cougars have amassed 444 points while allowing their opponents only 53. Their lone defeat came at the hands of a Triple-A foe, and in playoff competition they have beaten: Caldwell 19-6 in bi-district, Diboll 34-0 in regional and Tomball 20-0 in the quarter-finals.

The Cougars are masters of the Wisbone-T attack, preferring to fire their big guns in a ground attack instead of an aerial bombardment. Their strategy has worked to the tune of grinding out 3,941 yards during the season.

Coach Rodney Hudson calls on a trio of backs to lead the Cougar attack. Halfback Jim Brooks, a 5-9, 165-pounder, has gained 1,194 yards on 174 carries. On the other side, Kevin Scott, a 6-2, 185-pound sophomore, has rushed for 1,113 yards on 150 tries and fullback David Butler, 5-8, 173, used primarily on blocking all year, has carried 52 times and gained 383 yards.

Masterminding the Cougar attack is Kenneth Coulter, 6-3, 185, who is the third leading rusher with 825 yards on 150 attempts. He also

Public is invited to choir presentation

December 6, 1971

Dear Burnis,

The advent of another Christmas season sees us hurrying too and fro with our many activities. I would like to take this opportunity to invite you and your readers to pause for a little while to inject a good measure of Christmas spirit by your presence at our annual Christmas Choir Concert presented by the three choirs of the St. Paul Lutheran Church here in Hondo Sunday, December 12, at 7:30 p.m.

Another unique part is that we are privileged to have participation of singers from some of our neighboring churches in our senior choir. This is truly a great experience for us to present this concert. We hope that many will come, hear the songs of Christmas and perhaps receive a measure of inspiration.

Yours truly,
Albert Rowlett

LIONS TURKEY SHOOT SLATED

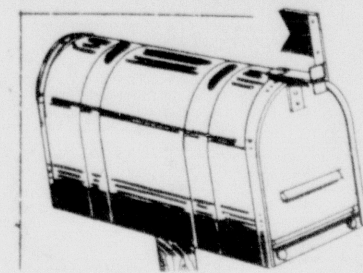

The big Turkey Shoot planned by the Hondo Lions Club is set for December 19 at the K & B Drive In and members are selling tickets now. They sell for \$1 each or 6 for \$5. Proceeds go to the Lions Scholarship Fund.

Winners in Pecan Show

All of these are winners at the Winter Garden Area Pecan Show held in Hondo Dec. 7-8. Taking awards in the show are left to right: Henry Schirmer, Castroville, Grand Champion Native, heaviest Native, lightest Native and Reserve Champion Native; Debra Jones of Devine, first runner-up; Lynda Howard, Pecan Show Queen; Marvin Harris, Eagle Pass, Grand Champion Pecan of Show, Wichita variety; also champion in shell and also highest

percent kernel; Debbie Cheney of D'Hanis, second runner-up; Clarence Wurzbach, Rio Medina, Champion Shelling pecan, Elliott variety; also Reserve Champion of Show; Rev. Victor Schmidtinsky, D'Hanis, heaviest pecan, taking 24.37 pecans to make a pound (this just might be a world's record), Imperial variety; also Reserve Champion In Shell pecan. The show attracted 96 entries, five more than entered last year. (Photo by Rev. Victor Schmidtinsky)

Dear Mr. Lawrence:

I just wanted to drop you a note to say how much I enjoyed working with you on the Senator's appearance at the Chamber of Commerce banquet. Your splendid cooperation and hospitality contributed greatly to the success of the dinner. I particularly want to thank you for the help in making the proper arrangements for the Senator's appearance, and I hope we have a chance to work together again.

Thanks again for your time and consideration on the Senator's behalf.

Mr. Harry Filleman
Hondo Chamber of Commerce
Hondo, Texas 78861

Dear Harry,

The surprise and thrill of being named "Citizen of the Year" by the Hondo Chamber of Commerce Monday evening at the annual banquet left me in a complete state of shock. Had I tried at that time to thank those responsible for my receiving this award I'm afraid I would have left everyone present wondering "How and why could the Directors have picked that?"

Even now I can't think of an answer to this question. I had a few likely prospects in mind and was eager to see if I had made the correct choice. After Mr. Hackebell started the introduction it didn't register for a while that it could be me. Suddenly realizing the pattern taking form I started to fall apart, shaking to the point I wasn't sure I would be able to stand up to receive the award after being named.

The Hondo Chamber of Commerce banquet of Dec. 8, 1971 will never be forgotten by Mary Jo or me. It is impossible to express in words my sincere appreciation and thanks for being considered,

let alone being chosen "Citizen of the Year" and I will do everything in my power to be worthy of this honor.

Thank you very much.

Sincerely,
A. D. Patterson

given to Library

Lt. Col. Maurice Wallrath, U.S. Army ret., has recently donated his collection of books to the Hondo Public Library.

Col. Wallrath, a native of D'Hanis, also gave numerous personal items, pictures, book shelves, and an 80-year-old secretary desk from his original home. These items will be on display at the Hondo Public Library for the next two weeks, and the public is invited to view them.

Lt. Col. Wallrath is the son of the late Richard and Rose Wallrath, whose home and land in D'Hanis was settled by Charles Wallrath. The hill behind the old home was a source of clay for the red bricks used in the building of the old Fort Sam Houston Quadrangle buildings.

Some of the books donated are "A History of the Civil War," Photographic, by F. T. Miller, 10 volumes; Pictorial History of the Second World War by A. E. Davies, 5 volumes; The Life Science Library, Time-Life Publishers; The Yankee Peddlers of Early America by Dolan; and Early Settlers and Indian Fighters of Southwest Texas, 2 volumes, by A. J. Sowell.

WHAT A WEEKEND

. . . of football we enjoyed! First we joined thousands of Owl fans Friday night as they yelled themselves hoarse in San Antonio.

That was one of the best high school football games I have ever seen! Great going Owls.

Then on Saturday the gals and I witnessed the Cowboy slaughter of Joe Willie and the New York Jets. Wow!

That Texas Stadium is something else twice over. We enjoyed excellent seats thanks to Doug Todd of the Cowboy Central Office (we paid for them but he did the selecting).

I have always said that the main thing lacking at the real live game is that instant replay the tube has accustomed us to. But Saturday, I saw a man who whipped that problem.

Those plush glassed-in boxes were just behind and slightly above us and of course their occupants had all those closed-circuit tellies tuned in on the Cowboys. So a man just in front of us would watch a fine play on the field, then immediately stand up, turn around and zoom his field binoculars in on that set--and watch that instant replay!

Now, you can't beat that any old place.

Another highlight of the game was the half-time and post game shows presented by the Grambling College Band. Only one word can be used to describe their entire show--playing, showmanship, action,--and that is "great". If you ever have the opportunity to see them in person, don't fail to do so.

Parking proved to be somewhat of a confused chore for this old country boy and our stroll to the Stadium took exactly 20 minutes. Other than that and the miserable weather the day was perfect.

But we can't tuck tail and run for then we could never negotiate any just settlement."

The Senator said the economy looms very important in the eyes of the American people. "And our President took the necessary steps in his economic policies. We must stop the run away inflation that robs us all, especially those on fixed income and our senior citizens and disadvantaged citizens."

He said that one thing that must be done is the revision and modernization of our out-dated labor laws. "There is a labor monopoly in America--there can't be a monopoly in business," he said.

"In our present economic crisis we can't have one side fail to cooperate as labor is threatening," he pointed out. "With full cooperation I hope the present controls will be temporary. I have no intentions, at the present time, of voting for them to be extended beyond their present cutoff date in 1973."

Many problems in our country today are caused by the flight of rural people to the urban areas, and this

must be reversed, according to the Senator.

"We must preserve rural areas and small towns in a state of economic progress, and that is what you are doing in Hondo," he said.

"But we must face our problems instead of wallowing in self-pity," he added. "There are many who still think that if we throw enough federal money at our problems they will go away. Well, we have been throwing federal funds at them for a long time and they haven't gone away yet."

He continued: "We have many problems today that can be solved at the local level, and this we must do. "We must be capable of criticizing ourselves and see what is wrong with the nation. But we must also see what is good with our country."

"You have confidence in yourself or you would be living in a deteriorating community. You have a good community, but you also have the responsibility of seeing that it contains to grow and prosper."

KRME to sign on at 6 a.m. daily

Starting Monday, December 13, Radio Station KRME in Hondo will go on the air at an earlier time--6 a.m.

This new opening schedule will be on a permanent, daily basis with the exception of Sunday when KRME will go on the air as usual at 8 a.m.

Authority to begin broadcasting at 6 a.m. daily was granted by the Federal Communication Commission under provisions of Section 73.99 of the rules and regulations of the Commission.

"The section," says KRME manager Jim Fridge, "provides that stations which have regional designations may sign-on at 6 a.m. rather than local sunrise under specified conditions upon approval of the Commission. KRME applied for the special Pre-sunrise waiver in October and received approval on November 17 in a telegram from Wallace E. Johnson, chief, Broadcasting Bureau, FCC."

Fridge explained the delay in getting on the air ear-

lier was caused by adjustments and alterations necessary in the station's transmitting equipment. "These adjustments were completed last week and tests, as required by the Commission, were conducted prior to the station beginning full time 6 a.m. sign-on," Fridge said.

"Addition of the Pre-sunrise hours of operation will give the station up to 12 percent more hours of operation," the station manager explained. "In the past the station's sign-on time was regulated by local sunrise and varied from 6:30 to 7:30 a.m."

Sign-off time at the station will not be affected by the new provision. It will remain at 6 p.m., with the exception of those months that local sunset provides for an earlier sign-off.

"This means," Fridge said, "the station will operate from 6 a.m. to local sunset (3:45 p.m. this month) Monday through Saturday. Sunday hours will remain the same from 8 a.m. to local sunset."

Predator control meeting planned

By Glenn Bragg
Medina County
Agricultural Agent

Sheep and goat producers in Medina County are encouraged to attend one of the upcoming meetings regarding a referendum on predator control proposed by the Texas Sheep and Goat Raisers Association.

The meeting schedule is as follows: December 13, Community Room of the First National Bank, Uvalde; December 14, Rainbow Room of the Stephenville Savings and Loan Association, Stephenville; December 15, District Court Room, Fort Stockton; December 16, University Center, San Angelo State University, San Angelo; and December 17, County Court Room, Fredericksburg. All meetings will begin at 2 p.m.

The meetings will be a joint venture by the Texas Agricultural Extension Service and the TSGRA, according to County Agricultural Agent Glenn Bragg. The role of the Extension Service is to explain the provisions of the Texas Agricultural Check-off Act of 1969. This will be done by John J. Seibert, Extension economist at Texas A&M University.

The district agricultural agent in each of the respective Extension districts will preside at the meeting and will explain Extension's educational responsibility as related to the check-off act. A representative of the TSGRA will explain the association's proposed referendum.

The proposed referendum will involve sheep and goat

producers in 73 counties in the far west and west central areas of the state. These counties have 16,704 producers and 5,578,000 head of sheep and goats. According to the TSGRA, this is 81 percent of the producers and 97 percent of all the sheep and goats in the state.

If the State Commissioner of Agriculture certifies that the referendum be conducted, an election will be conducted by mail ballot next spring. A board of directors will also be elected at that time. If the referendum passes, maximum deductions will be 20 cents a head for sheep and 10 cents a head for goats. The assessment will be made on all animals coming off of pasture or producer-owned lambs going into feedlots.

Announcing A new Food Fad:

A bundance

Remember when "a chicken in every pot" was a politician's pipedream? The more fortunate had chicken every Sunday -- it was the meat for the week. The preacher ate the white meat, the kids ate the wings.

You may not remember that.

For the last quarter-century, food has been produced and consumed in ever-increasing varieties. Our nation has had a stable, dependable, economical, wholesome food supply. American farmers and ranchers have given their country something the world has never witnessed before: an abundant harvest, year in and year out.

This miracle is accomplished with modern technology. Antibiotics, the same drugs you give your children, are used for healthy livestock. Chemicals, such as you put on your lawn and garden, are used for high-yielding crops. Drugs and chemicals and machines are the tools of our trade.

We are proud of our contribution to America and the world. You should be, too. Let us keep our tools and we can continue the job.

Abundance: where the world has known only famine. That's a challenge; a challenge we can meet.

SOCIAL SECURITY Questions & Answers

QUESTION: After applying for social security payments at 65, I returned to work. Will this work increase my payments?

ANSWER: Yes, if you earn enough to increase the average earnings used to figure your retirement payment. If not, your payment remains the same. Any increase in benefits is figured automatically without any action on your part. It is done near the end of the year after you worked but is retroactive to the first of the year.

Hackebell to receive A & M degree

COLLEGE STATION-- Charles Hackebell of Hondo is among the 1,198 students applying for mid-term graduation at Texas A&M University, announced Registrar

Robert A. Lacey. Hackebell, who resides at a rural route, is seeking a degree in accounting. Commencement exercises will be conducted Dec. 11.

"Native Grasses" will be the subject of a program next Tuesday night, December 14, at the monthly meeting of the Hondo Young Farmer Chapter, according to Glenn Dittmar, president.

Beginning at 8:00 in the Vocational Agriculture building at Hondo High School, the program will be presented by Darwin Schrader, Range Conservationist for the Soil Conservation Service.

Selections from the many varieties of native grasses in Medina County will be shown and the identifying characteristics and usage of each variety will be explained.

A film "To Keep and Bear Arms", produced by the American Rifle Association, will also be shown. Anyone interested in hearing and seeing this program is welcome to

attend. Young Farmer members are urged to bring a guest.

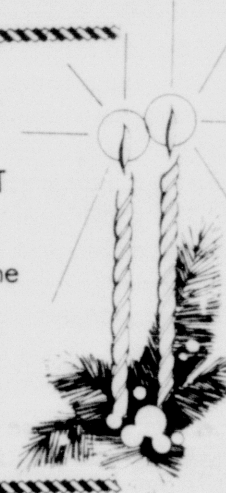

Annual dues are due and can be paid to Treasurer Robert Martin and it is still possible to enter the Young Farmers' contest for widest deer horn, most points and longest turkey beard. Contest winners will be selected in January.

This week

That's all she wrote

by Edna McDade

All of a sudden, it's Christmas time again! I returned home just in time to note some of the unmistakable signs -- the street lights, for one. You'd never guess how the residents of Salley, So. Carolina, (pop. almost 500) raise money for their holiday decorations so I might as well tell you.

They promote an annual CHITLIN STRUT! The project began in 1966 when the town's treasury hit a new low and something had to be done. A resourceful, imaginative promoter said it would "take guts" to do it but, why not go for a Chitlin' Strut? Any die-hard Yankees could call it "chitterling".

Dubbing their town the "World Chitlin' Capital", they set the first Saturday following Thanksgiving for the gala affair. The idea caught fire and has grown each year. In 1970, the Strut drew 12,000 visitors "at a buck a throw and \$12,000 can buy some mighty purty decorations" said a report.

The Salley publicity director believes that the annual Chitlin Strut is the largest undertaking by any town of comparable size. Last year, the event even rated a story in the Paris, France, International Tribune.

Said a Niagara, N.Y. columnist, "The Chitlin Strut might not turn you on, but it ranks right up there with the Southern Indiana Turkey Buzzer Festival and the Hog-Calling National Finals in Arkansas."

Any ideas for a Hondo money-raising to brighten up our own flickering lights?

Another local tradition that betokens Christmas is the display of native cedar trees. FERDIE BATTOT gave me the story about those on the Hondo Lumber Company lot, Avenue M.

When Ferdie was 9 (some 20 years ago), he and his sister BARBARA (the late Mrs. Dick Bucci) decided to venture into business on their own. With plenty of cedar trees available on the family ranch, they chopped down enough to display at their home and they sold 59 trees that first year.

Since then, sales topped 500 during the years the air base was in operation. Sales now average between 200-300 annually.

And, what kind of a Christmas tree do you suppose will touch the ceiling in the home where two small boys and their smaller sister will await Santa's arrival with their mother and daddy? The tallest, most beautiful tree that ever grew on the ranch of their grandparents, the MILTON BATTOTS, of course.

Last week, it was my pleasure to meet the family of Owl Coach NELSON BIPPERT, who think Daddy is a mighty fine coach. Don't we all?

BRENDA (10) and MONTE (7) had accompanied their mother, GAY, grocery shopping. Monte, having just come from a birthday party which included generous helpings of cake, candy and other such delectables was not, at the moment, particularly interested in food. Going home seem the goal he had in mind.

Any mother of small boys could tell you that, by supper time, the old familiar "I'M HUNGRY!" would ring out loud and clear.

Other new acquaintances are MARK (7) and COURTENAY (5) of the House of JOHN and JEWEL ROGERS. They're kinfolks of BAILEY and GRAYFORD ROGERS.

They were accompanied by Gay's mother, Mrs. ED ("Jack") LOGRBRINCK. Courtenay admitted to being five, but she'll be SIX on August 6th, whenever THAT is.

As for MARK, now in the second grade, he has until May 19 to go before reaching the ripe old age of eight.

A one-year birthday looms ahead, on Jan. 3, for pretty, dimpled and all smiles SONIA, daughter of ROGER (Rojelio) and TERESA TREVINO. Daddy works at GARY and "I sure do like my work", he says.

And here are two little items to help brighten the corner where you are:

A secretary (not from Hondo) asks: "Is water-works one word or is there a hydrant in between?"

And, with income tax paying time rearing its expensive head on everybody's calendar, this is defined as "The time when it takes more brains to make out the return than it does to make the income."

Income tax experts ought to love that!

Leaders meet

Among members of the Texas House Interim Committee on Vocational and Technical Education attending initial session of the panel at the Capitol in Austin were, left to right, Dr. Alvin I. Thomas, President of Prairie View A&M College; Rep. Tom Uher of Bay City; Rep. John Poerner of Hondo; and Tom Deliganis, Director of Vocational-Technical Division, Laredo Junior College. The 12-member committee is composed of six members of the Texas House, and five members chosen from the public. Rep. R. B. McAlister of Lubbock is committee chairman.

Sid Malone heads county committee

Sid Malone, Mayor of Devine, was elected chairman of the Medina County Program Goals Committee at a recent meeting in Hondo.

Aiding Chairman Malone with the committee, which is a local arm of the Alamo Area Council of Governments, will be Father George Stueb-

ben of Hondo, vice chairman; and Ben Cortez, Devine, secretary.

The group set the third Tuesday of each month as its regular meeting time. Members will meet in the Hondo City Municipal building.

"This committee will work hard to provide what we feel

is best for Medina County," Chairman Malone said following his election. "And I personally think that federal help is one way to turn. As long as our communities are in need and the money can be put to good use, I believe in seeking federal assistance."

Purpose of the Medina County Program Goals Committee, members of which were appointed by County Judge Jerome Decker who is a member of AACOG's executive committee, is to study the various problems existing in Medina County and come up with suggested solutions. These problems can cover education, economy, general government, housing, regional development, transportation, recreation and land use of open space, human resources, health and sanitation.

Once the committee pinpoints a problem and offers a solution, then a technical committee of AACOG takes it from there to possible fruition.

"Once a project is voted, then this committee has the responsibility to see it is completed," Malone said.

"One other important task of this committee is the dissemination of information," he added. "We must tell our neighbors of our ideas, our plans, our hopes. And invite them to the committee meetings. They are open to the public."

SCS to host meeting

Hondo will be the host for the quarterly meeting of the Soil Conservation Society of America, Southwest Texas Chapter, tonight, (Thursday) at Herman Sons Steak House on US Hwy. 90, according to E. L. Abbott of Hondo, immediate past president.

Members from 23 counties in the south-central part of the state are expected to attend this meeting which will feature the election and installation of officers for the coming year and a review of activities during the past year. Rayford Brister, District Conservationist for the Soil Conservation Service in Kerrville, is the outgoing chapter president.

A program on native plants and wild flowers will be presented by Glenn Dittmar of the Soil Conservation Service in Hondo.

The Soil Conservation Society is composed of both professional and non-professional conservationists as well as other people interested in the preservation of our soil, water and other natural resources and the protection of our environment.

Cougar 'beef' is tough

Most folks don't like "tough beef" at all. But up in Rosebud the Cougar fans just love it, especially when "it" includes the forward wall of the Cougar defense. These three "big ones" form a part of the Cougar defensive team that has allowed 13 opponents a mere 53 points, and

that includes bi-district, regional and quarter-finals. Coming off the field for a rest in one of their games are, left to right: Guard Mark O'Leary (66), 200; Center Wesley Lucas (55), 190; and Tackle Jesse Smith (79), 260. (Photo Courtesy of Rosebud News)

Continued from page 1

guides their aerial attack, having taken to the airways 75 times and completed 30 for 587 yards.

Coach Hudson terms his defense as the mainstay of the team and stats will prove he has a point. In addition to giving up only 53 points, the defense has shut out one foe with a 0 rushing yardage, and last week almost repeated the feat by holding Tomball to only one yard on the ground in a quarter-finals game.

Coulter, with seven interceptions, leads a defensive team which has stolen 27 passes this year.

Mark O'Leary, 6-11, 200, tackle is considered the defensive leader and he is joined by Dwight Kelly, 6-11, 220, at the opposite tackle. End Charles McIntosh, 6-2, 215, adds weight to the defensive unit, and Jesse Smith, 260, throws his "beef" into the battle a lot, although not considered a starter.

Experience adds another facet to Cougar attributes. Scott is the lone underclassman on the offensive unit, and Dennis Terry and Johnny Jones are the only two non-seniors on defense.

Rosebud starts defensive and offensive units tipping the scales at approximately the 185-pound mark per man, and despite this size, the Hondo Owl scouting report said, "they are quick, fast and aggressive."

The Cougars like to utilize the sweep on the Wishbone, but they also like to prove their strength by running straight at a team. They enjoy blowing a hole in the line and popping a fast back through into the clear.

On the other side of the scrimmage line the Owls can do a little boasting also. They have scored 347 points during the year and allowed only 98, with 40 of those coming at the hands of the 3-A Uvalde Coyotes, the only team to defeat Hondo this year.

The Owl ground game has covered 2,606 yards and in the air they hold an advantage over the Cougars. Hondo has attacked through the air for 942 yards. Quarterback Tom Hill edges Coulter in this department. He has completed 49 of 103 for 868 yards. But he has been intercepted seven times. Keith (Kebo) Ligon tops the total yardage figures with 1,396, but he has carried the ball 205 times. Johnny Abrego has carried for 658 yards during the year.

Hondo, if forced to take

to the airways more by the Cougar defense, can call on a trio of fine receivers. Stats show Eric Grant 13 for 441, Faron Helvey 14 for 260 and Terry Meehler 15 for 205. Tomas Barrios also adds depth to the Owl receiving contingent.

Defense also has been a strong point in Owl record. No one player stands out although Mark Buescher will come close. The success hinges on fine cooperative teamwork turned in by Fred Bader, Mike Saathoff, Gary Zinsmeyer, Greg Buescher, Kurt Leinweber, Joe Schueling, Gordon Wiemers, James Batteau, Nick Turner, Robert Blackshear, Eric Grant, Lonnie Knowles, Tom Hill, John Howard.

And Grant, Hill, Knowles and Barrios have been known to pifer an enemy aerial or two.

One key to the Owl game has been taking advantage of mistakes made by their opponents. They feel, and justly so, that they have produced many of the 12 turnovers in the three playoff games.

Last week's victory over the defending State champion Refugio Bobcats, who also have been rated number 2 all year, proved to the Owls they can take on the "big ones" and come out victors.

Coach Nelson Bippert, who has sent two teams in to the playoffs in three years, says, "They'll be tough. They have a fine team. But our boys are ready to play and we'll be out there Friday night to give them a tussle for their money."

And you can bet that again the stands will be filled with jumping, shouting, screaming Hondo Owl fans, hoping to send the Cougars back to Rosebud to wait until next year for a shot at the State title.

Scholarship winners from Hondo included Robert Mumme, \$100 Texas Tech Agricultural Ex-Students blood Assn. scholarship.

Dangerous Cougar

Rosebud's Kevin Scott, 185-pound speedster, will be just one of the Cougars Owl fans will be keeping a close eye on in Seguin Friday night. He has been highly responsible for the Cougars' rolling up 444 points in 13 games. Last week in the quarter-finals clash with Tomball, tailback Scott rushed for 124 yards and scored one touchdown. He is joined in the backfield by Quarterback Kenneth Coulter, 185, D. Butler, 173, and J. Brooks, 163. Against Tomball Coulter scored two TD's, one on a two-yard plunge and the other on a 45-yard gallop. (Photo Courtesy Rosebud News)

Analyze Advertising

The whole value of advertising to a retailer can not be judged on the basis of immediate sales of an advertised product.

True, returns on advertising are often immediate and obvious. However, the major aim of retail advertising should be to increase overall store traffic.

Usually when a customer enters a store to look at an advertised product, he will buy other things before he leaves.

More important, when advertising draws a consumer to a store one time, there is a good chance that he will return in the future.

An advertisement featuring a one dollar item may cause a shopper to come to a store in the first place. Often, however, the full value

of the advertisement is not realized until that same shopper has spent perhaps hundreds of dollars on return trips.

In this connection, the sales manager of a department store chain tells how his stores evaluate advertising:

"Day to day returns on individual ads mean little to us. We have learned that our total sales show a decline when we cut advertising, and that the sales curve rises when advertising is increased."

He said that it was most important to understand that a reduction in advertising by a store reduces the sales of all types of goods, including products that are never advertised.

Fighting Owls slash Bobcats

Pandemonium reigned in the Hondo stands Friday night as their favorite, fired-up Owls spanked number two rated Refugio 14-6 in a quarter-finals playoff clash in Northside Stadium in San Antonio.

Both teams saved scoring

punches until the final half, probing, slashing, plunging and feeling each other out in the first two frames.

Offensive starts for the Owls had to be Keith Ligon, Johnny Abrego and Tom Hill, but Faron Helvey and Terry Mechler also grabbed their

share of the spotlight. And add to these the entire offensive line that faced a much heavier forward wall all night.

Ligon, who put on a show of hard, determined running all night, scored one tally and Abrego rammed for the

other. Hill kicked both extra points.

Picking defensive stars would be extremely difficult, but two highlights would be pass interceptions. Hill intercepted a Bobcat aerial late in the second half as Refugio was knocking on the scoring door.

Then with 1:11 left in the game the Bobcats again were threatening when Lonnie Knowles went high into the air to take a pass away from David Heard in the end zone. The importance of this interception can readily be seen by the fact that if Refugio had scored and had made two points they would have tied the game, tied the penetrations and would have advanced in the playoffs by virtue of first downs.

But to even intimate these two plays were the only defensive standouts of the night would be to do an injustice to the entire Owl squad. Throughout the night, the Owls gave away weight and still came up with the defensive plays that broke down the high-scoring Bobcat machine that took Refugio to State last year and kept them ranked number two all year.

Refugio scored first, taking the ball on the first possession of the second half and ramming it 63 yards for a tally. A 34-yard pass from QB Randy Knox to Roy Booker set up the score by Larry Bonner from the four. End David Heard, kicking with his shoe off, spun the extra point try off to the right and that might have been the downfall of the Bobcats.

An exchange of the pigskin saw the Bobcats again in action. But Tom Hill pounced on a Carl Green fumble on the Hondo 44 and from there the momentum changed.

Ligon lugged the mail seven times in that 60-yard drive, and aided by an 11-yard pass from Hill to Mechler, got the ball to the six-yard line where he blasted over for the tally. Hill's kick put the Owls in front to stay.

The momentum caught on with the defense which

rose up to stop the Bobcats on the ensuing kickoff and the offense took over after a short 32-yard punt by Heard. This time it was a slashing trio of Abrego, Ligon and Hill that ground out the yardage toward the end zone.

With a third down and some yardage to go on the Hondo 37, Hill started to pass but was rushed and encompassed by two Bobcats. He broke loose, reversed his field, picked up some blockers, twisted, turned to the Refugio 44 before being brought down.

Utilizing Abrego in an end sweep, the Owls picked up precious yardage to the 25. From there Kebo broke loose to the two before he was dragged down.

Then is when David took on Goliath. Abrego smashed into the big Refugio line three straight times, advancing the ball only to the

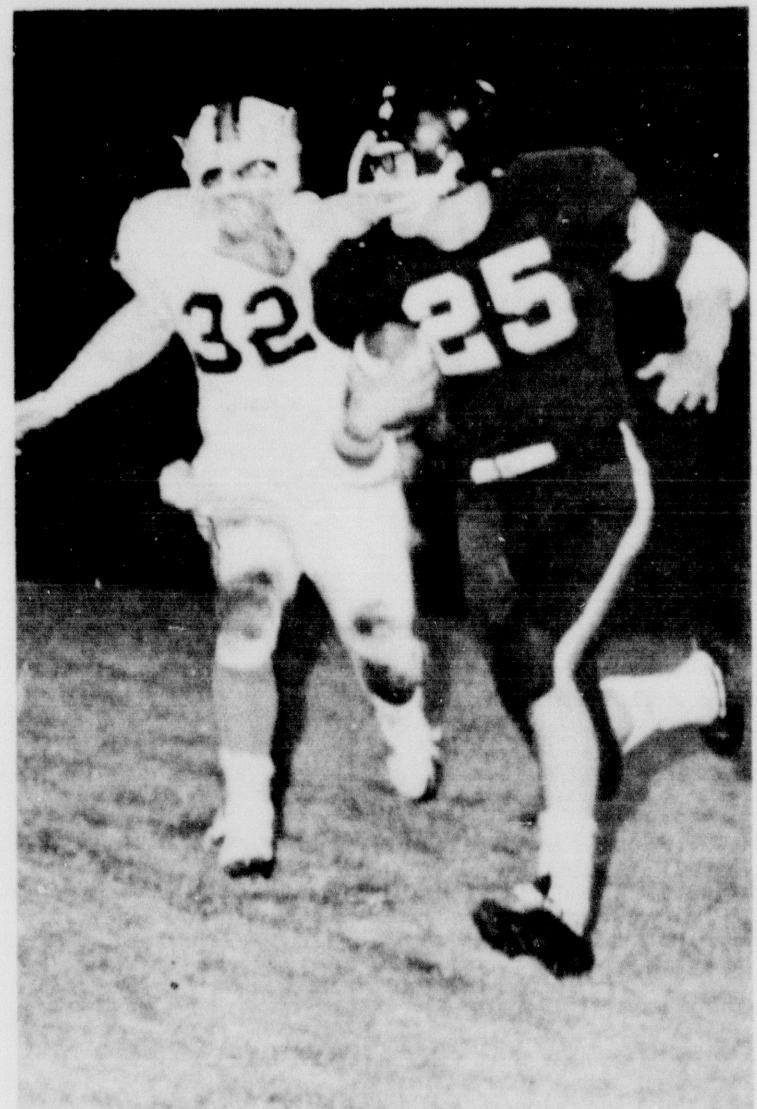

one-foot line.

What would they do now?

Coach Nelson Bippert quickly ended the wondering of the fans when he sent Abrego smashing into the line, only this time he crossed the double stripes and Hondo led 13-6. Hill booted the extra point through the uprights and that was the old ball game.

Abrego again turned in a fine kicking performance, punting three times for an excellent 44-yard average. One of these was a tremendous quick-kick that caught the Bobcats flatfooted.

Unofficial statistics showed (Hondo first): First Downs --13-16; Yards Rushing--103-134; Yards Passing--35-108; Return Yardage--2-2; Passes--8-8-1, 9-18-2; Pints--8, 44, 0, 4, 26, 0; Fumbles Lost--0-2; Yards Penalized--4-50, 3-25.

A FAM'LIAR SCENE

... Kebo Ligon on sweep

Harmon won't stick his neck out too far!

Time for speculation! With just two games left in the regular NFL season, let's look ahead to possible playoff participants.

Having already picked Baltimore to win its game against Miami next week, that gives the Colts the championship of the American Conference Eastern Division while the Dolphins finish with the best won and lost record as a runner-up team to qualify as the #4 team in the play-offs. How simple it is on paper! The Oakland-Kansas City fracas next Sunday will almost determine the AFC West champion... we've picked the Chiefs. And in the AFC Central, Cleveland seems to have the decided edge over Pittsburgh. To look a little beyond, we feel certain that there will be a third rematch of the Dolphin-Colt game, this time to decide the championship of the American Conference.

In the National Conference, it's almost as ridiculous to try to make any quick prognostication. Our speculative pairings would be that Minnesota from the Central Division will face Dallas from the East. The #4 team is really up for grabs at the moment, but we think that either Los Angeles or San Francisco - and the schedule seems to favor the Rams - from the West will meet Washington, the best runner-up team. The Rams-Red-

skins game next Monday night might just decide that question. But we'll venture to forecast beyond that for the NFC championship... "too close to call!"

As for picking a Super Bowl champion... well, our neck will be on the chopping block soon enough!

Our pro forecasting average through Saturday, December 4th, is .650 with 89 right, 48 wrong, and 7 ties.

Receives medal

SPECIALIST FIVE AUGUSTINE GARCIA, JR. has been presented the Bronze Star Medal by the U.S. Army. Garcia earned the medal while serving in Vietnam as First Cook for Advisory Team 22, Second Regional Assistance Group, U.S. Military Assistance Command. The award was presented at Ft. Defective gas line brings on illness to D'Hanis

Members of the D'Hanis Cowboy team and their coaching staff became ill Friday night at Alice just before their class "B" Regional play-off game with Agua Dulce.

Authorities said the cause of the illness was not determined but it was believed to have been caused by either poor ventilation in the D'Hanis dressing room or a leak in the heating system.

One of the Cowboy coaches was the first to notice the sickness when he stepped outside the dressing room and reported feeling sick and nauseated. Most of the balance of the D'Hanis team became ill just prior to the start of the game and the Cowboys called all their timeouts

early in the first quarter while players were shuffled in and out of the game.

During halftime the D'Hanis team was checked by a doctor and administered oxygen before the start of the second half.

All the players were reported suffering no ill effects of the attack after the game, but one player, David Nester, was confined to an Alice hospital suffering from a concussion suffered during the game. He was due for release today.

The Cowboys dropped the game 35-0.

The best response to abusive calls: hang up.

If an abusive caller rings just hang up the telephone

The phone rings. You answer and the caller's language is abusive, obscene, or threatening. What do you do?

"Hang up," says Harold Johnson, Manager for Southwestern Bell here. "Use the phone on your own terms. Don't talk to anyone you don't want to, whether they're selling something, seeking information, playing a prank or mouthing obscenities. Don't give them an audience and they're not likely to call back."

Johnson said the phone company has other suggestions on how to fight annoying calls:

1. Make callers identify themselves. When someone asks, "Who is this?" don't tell them unless you recognize the voice or until he identifies himself.
 2. Don't answer any questions from a strange voice that you wouldn't answer in a face-to-face meeting with a stranger on the street.
 3. If a caller remains silent, hang up. Some abusive callers want to listen, just to see what you'll do.
 4. Hang up at the first indication of an obscene or suggestive remark. The caller would like nothing better than for you to respond to his comments.
 5. Hang up if you're not interested in a product or service being sold by telephone and the caller persists despite your disinterest.
- When these techniques

are unsuccessful in stopping annoying calls, call the telephone company business office or operator, Johnson said.

"And where a threat is involved," he continued, "such as a call threatening injury to person or property, kidnap or robbery, call the police and the telephone company immediately. There are laws against abusive calling, and we have methods of tracing these calls to their source."

The law makes it a misdemeanor to use profane, vulgar or indecent language, threats, harassment or enticement by use of the telephone. Conviction carries a

fine from \$100 to \$1,000, one to 12 months in jail, or both.

Johnson said experience has shown that annoying calls come from almost anyone -- not just from strangers, but sometimes from close acquaintances, neighbors or fellow workers.

"But they don't come from that source often. Many come from a relatively small group of people -- unsupervised youngsters, misguided or frustrated people and sometimes from the mentally ill. Hang up, and you've denied them what they want -- an audience," he concluded.

MCAEC to have X-mas program

The MCAEC will have its annual Christmas program Monday night, Dec. 13, at 7:30 p.m. at the Child Development Center on the Air Base.

The program will be presented by the students of the center. Installation ceremonies for newly-elected officers and directors will also be held. Refreshments will be served at the conclusion of the programs.

The public is cordially invited and urged to attend. Also at this time, as program chairman for MCAEC, I would like to thank the Anvil Herald for all their cooperation this year for the news

and announcements that were printed in the paper each month.

Fowler says accessories add zip

BY BARBARA FOWLER
Medina County Home
Demonstration Agent

It takes well chosen accessories to put the finishing touches on any room. Accessories can be the most personal element in decorating and can reveal best the interests and personalities of family members. Equally as much care and thought should go into selecting accessories as in choosing a carpet or an entire color scheme.

Accessories may be grouped according to function into two categories. Decorative accessories are those offering beauty or decoration. Wall plaques, sculptures and paintings fall into this group. Utilitarian accessories are those that perform a service in addition to being decorative. Ashtrays, clocks, lamps and throw pillows are examples. Both types are important in adding the finishing touch to room decor.

In selecting accessories,

choose those that reflect your interests and are compatible with other furnishings. Consider size, shape, color, theme, texture and purpose. Arrange or place accessories for convenience and beauty. If placing items on walls, consider them a part of furniture grouping or as the focal point. Guard against cluttering surfaces with tiny, useless objects. And when merging the old with the new, consider the degree of formality of the items before placing them together.

There are no hard and fast rules that guarantee success in the use of decorative accessories. There are however, a few basic guides the homemaker can adhere to which will generally lead to more pleasing results. First, use a few well chosen pieces. The cluttered look is passe'. Empty spaces can add much to the dignity and restfulness of a room. Second, make a

plan for accessories. Be sure they will serve their purpose and will be compatible with other furnishings. Third, choose and use accessories of good design. These need not be expensive. Pieces with good lines, shapes and decorative detail can be obtained in all price ranges. When you've found an accessory that is pleasing in line, shape, texture, color and decorative design, and that serves a purpose and fits in with the mood of your home, cherish it. You've found a life-long treasure. And last, arrange accessories so that they make a complete and attractive design. Consider the room as a whole as well as each place where accessories are used.

For additional information on selecting and using decorative accessories, contact Mrs. Barbara Fowler, County Home Demonstration Agent.

O'Neal appointed

CHARLES D. O'NEAL, a native of Devine, has been promoted to Manager of all of Champlin Petroleum Company's transportation activities. O'Neal has held various positions in Champlin's Pipeline Department since starting as a construction engineer 23 years ago. He is a graduate of Texas A&M with a B. S. in Natural Gas Engineering.

Brookshire gets high Masonic post

WACO--Senator Jack Hightower of Vernon, installed today as Grand Master of the Masonic Grand Lodge of Texas, has announced the appointment of A. W. Brookshire of Hondo, as District Deputy Grand Master of Masonic District No. 53. Brookshire, an active Mason in this area, will serve five lodges as the representative of the Grand Master for a one-year period. In making the announcement, Grand Master Hightower stated: "I appreciate the fact that Brookshire has agreed to serve in this important position. His active participation in Masonic and community affairs proves his qualification for this place of service."
